

Art and Craft Grade- 1

TEACHER TRAINING MANUAL – THEME 1: FINGERPRINT ART

Theme Overview

Theme Title: Fingerprint Art – Exploring Identity & Nature

Grade Level: Grade 1

Total Sessions: 4 (1 per activity, 40–45 min each)

Art Focus: Self-expression, fine motor development, and basic drawing integration using fingerprints.

Learning Objectives :

By the end of this theme, students will:

Develop fine motor coordination by making controlled fingerprints.

Express relationships and personal identity through art.

Explore basic shapes, patterns, and storytelling visually.

Recognize and use primary and secondary colors creatively.

Teacher Preparation

Mindset & Approach:

Encourage freedom of expression. No “perfect” results.

Create a positive, mess-friendly environment.

Use encouraging language: “Wow! Tell me about this part!” rather than “What is it?”

Classroom Setup:

Use table covers/newspaper to protect desks.

Keep hand-wash station or wipes nearby.

Demonstration table at the front.

Assign buddies for peer help with paint.

Activity 1: Fingerprint Family Portrait

Objective: Express family relationships and develop fine motor skills using fingerprints.

Materials: White A4 sheets , Washable paints (multiple skin tones optional) , Black markers ,
Wipes or water bowls

Teaching Steps:

1. Introduction (5 min): Ask students who lives in their house. Talk about what makes a family.

2. Demonstration (5 min): Show how to dip only the fingertip (not whole finger) in paint. Print 4–6 ovals as “family heads”.

3. Activity Time (25 min): Students make prints. Let dry for 2 min.
Draw eyes, hair, smiles, and write family member names below.

4. Wrap-Up & Sharing (5–10 min): Invite 3–4 students to present and describe their family portrait.

Tips:

Encourage different colors for different people or pets.

Some students may not live with both parents. Be inclusive: “Choose people who care for you.”

Activity 2: Fingerprint Fireworks

Objective: Explore color mixing and patterns with a festive theme.

Materials: Black paper, Washable paints (bright colors: red, yellow, blue, purple) , Cotton swabs

Teaching Steps:

1. **Introduction (5 min):** Show a 30-sec video or image of fireworks. Ask what colors they see.
2. **Demonstration (5 min):** Show pressing fingertips in a circular pattern. Then layering other colors on top.
3. **Activity Time (25 min):** Students create colorful bursts. Use cotton swabs to add “sparkle dots”.
4. **Wrap-Up (5–10 min):** Display the fireworks wall. Play soft music to walk and admire others’ art.

Tips:

Teach kids to tap fingers lightly, not smudge.

Mix red + yellow = orange, blue + red = purple—reinforce color blending.

Activity 3: Fingerprint Ocean World

Objective: Depict underwater life and enhance drawing observation.

Materials:

White paper

Washable paints (blue, green, orange, yellow)

Black markers

Teaching Steps:

1. **Introduction (5 min):**
Show sea creature images. Ask: “How do fish look? Long? Round?”
2. **Demonstration (5 min):**
Print oval fish bodies.
Add fins, tails, eyes, seaweed, and bubbles with marker.
3. **Activity Time (25 min):**
Encourage at least 3 types of sea creatures.
4. **Wrap-Up (5–10 min):**
Display and title the class gallery: “Our Underwater World”

Tips:

Provide handouts of sea animals as visual aids.

Allow kids to name their own sea creatures to build creativity.

Activity 4: Fingerprint Shape Train

Objective: Reinforce basic shape recognition using creative art.

Materials: White paper , Paint (any colors) , Black marker

Teaching Steps:

1. Introduction (5 min):

Draw shapes on board: square, rectangle, triangle, circle. Ask students to identify them.

2. Demonstration (5 min):

Show a sample train made of shapes. Use fingerprints to fill them.

3. Activity Time (25 min):

Students draw simple train using shapes.

Fill shapes with fingerprints.

Add wheels, smoke, and windows.

4. Wrap-Up (5–10 min):

Name their train (“Speedy Express”, “Rainbow Rail”) and display.

Tips:

Provide shape stencils for kids who need help.

Encourage storytelling: “Where is your train going?”

Assessment Criteria (Formative & Fun!)

Skill Assessed	Look for...	Rating Scale (1–5)
----------------	-------------	--------------------

Creativity & Expression	Personal touches, variety in family or sea creatures
-------------------------	--

Fine Motor Skill Development	Fingerprints clear and placed purposefully
------------------------------	--

Color Usage	Use of 2+ colors, basic blending
-------------	----------------------------------

Participation & Engagement	Active involvement, sharing work
----------------------------	----------------------------------

Shape & Pattern Recognition	Correct use of circles, squares, triangles
-----------------------------	--

Let students self-assess by drawing a smiley face if they enjoyed the activity.

Theme - 1

Self Portrait Drawing - Exploring identity through drawing and painting

Activity - 1

Fingerprint Family Portrait

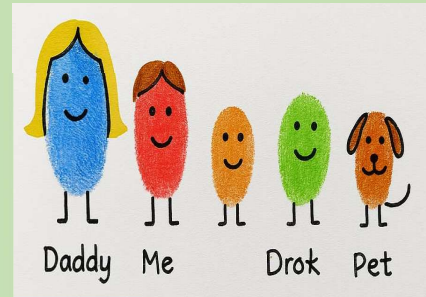

Objective: To express family relationships creatively and develop fine motor skills using fingerprint art.

Materials:-

Whitepaper, Washable paint, Black Marker

Steps to do:-

1. Have kids dip their fingers in different paint colors.
2. Press their fingerprints onto the paper to form small oval faces.
3. Once dry, use markers to add eyes, hair and names for each family member.

Activity - 2

Fingerprint fireworks

Objective: To explore color blending and pattern creation through a festive fireworks scene.

Materials:-

Red, yellow, blue and purple paint, black paper, Cotton swabs

Steps to do:-

1. Dip fingers in different colors and press them in a circular pattern on the paper.
2. Layer different colors for a vibrant effect.
3. Use a cotton swab or finger to add small dots around the fire works for sparkle.

Activity - 3

Fingerprint ocean world

Objective: To depict underwater life using fingerprints while enhancing observation and drawing skills.

Material:-

- Blue, Green, Orange and yellow paint.
- White paper and black marker.

Steps to do:-

1. Make fingerprint fishes by pressing fingers in different colors.
2. Draw fins, tails and eyes with a marker.
3. Use green finger prints to create seaweed at the bottom.
4. Add bubbles with white or blue dots.

Activity - 4 Fingerprint shape train

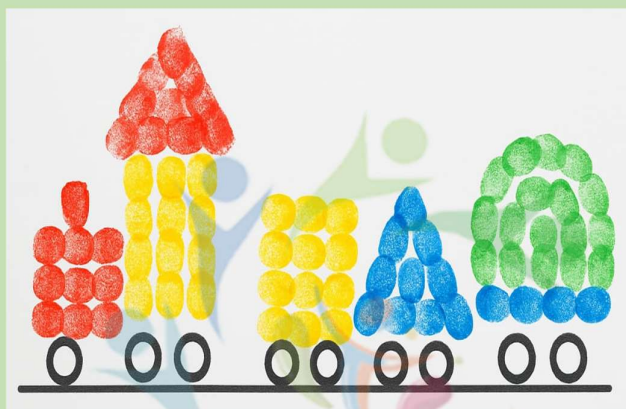

Objective: To recognize and fill shapes using fingerprints, reinforcing geometry concepts and creativity.

Materials:-

- Washable Paint
- White paper
- Black Marker

Steps to do:-

1. Draw basic shapes (Circle Square, Rectangle and Triangle) as train pairs
2. Have kids dip their finger in paint and fill in the shape with finger prints
3. Use a marker to add wheels, windows and tracks.

Material Checklist for Theme 1

Material	Qty	✓	Material	Qty	✓	Material	Qty	✓
Washable Paints 6–8 colors			Black Paper 4 per Students			Cotton Swabs		
White Paper			Markers			Water Bowls/Wipes		
Table Covers
