

EFFECTIVE STUDY SKILLS - Session 1 and 2

Starting early and creating a study plan

- Cramming your learning into a short period can be overwhelming and ineffective.
- Start studying as soon as possible to give you ample time to review the material.
- Some prefer to study for a few hours daily, while others prefer to study longer over the weekend or at night.
- Find a study routine that works best for and stick to it.
- Set up a timetable for your study. Write down how many exams you have and the days on which you have to sit them.
- Organize your study accordingly. You may want to give some exams more study time than others, so find a balance that you feel comfortable with.

How to create a Study Plan

- Creating a study plan is crucial to efficient exam preparation. It helps to structure your time, set priorities, and allocate enough time to each subject.
- First, determine your exam date and work backwards, setting aside ample time for each subject.
- Next, assess your strengths and weaknesses in each subject and prioritize accordingly.
- Consider factors such as class schedules, extracurricular activities, and personal obligations when creating your study plan.
- Finally, be realistic about how much time you can commit to studying each day and adjust your plan accordingly. A well-structured study plan can reduce stress and increase confidence on exam day.

ACTIVITY

Set Clear Goals: Define what you need to achieve in each study session.

Ask students to set goals in a book as to what they want to achieve

Make them write 5 goals in the book.

Prioritize Tasks: Identify the most important and challenging topics.

Ask the students to mention important topics from each subject

Ask them to write the most easy topics first and the difficult topics towards the end.

Create a Schedule: Allocate specific time blocks for studying each subject.

Ask the students to allocate the time required to learn the topics with or without help.

Motivate them to follow the time table without fail.

HOME ASSIGNMENT - The above mentioned schedule to be prepared and submitted for every subject by the students in the next class.
